

**micro**<sup>TM</sup>  
**p2**

A light-touch project management method for  
small projects aligned with PRINCE2<sup>TM</sup>  
from

**novare**   
consulting

MicroP2 is a software application which combines a Project  
Management Method with E-Learning and a Project Centre

## Novare Consulting

Novare Consulting were established in 2002 as a specialist Programme and Project Management company. Since then we have grown rapidly to become a much respected provider of both Consultancy and Training, attracting clients such as Microsoft, The Home Office, Siemens and The IET.

We are an Accredited Training Organisation for PRINCE2™, MSP and Change Management, and work with many organisations who are seeking to strengthen the way in which their projects are managed to improve successful project delivery.

## MicroP2

The most popular Project Management Method used in the UK today is PRINCE2™. However, using PRINCE2™ to run smaller projects presents the challenge of scaling the method without compromising its logic or integrity.

We have invested 4 years of research and development in creating, testing and refining our Project Management Method, MicroP2.

**MicroP2 is a simplified, comprehensive, proven project management method for smaller projects based on PRINCE2™**

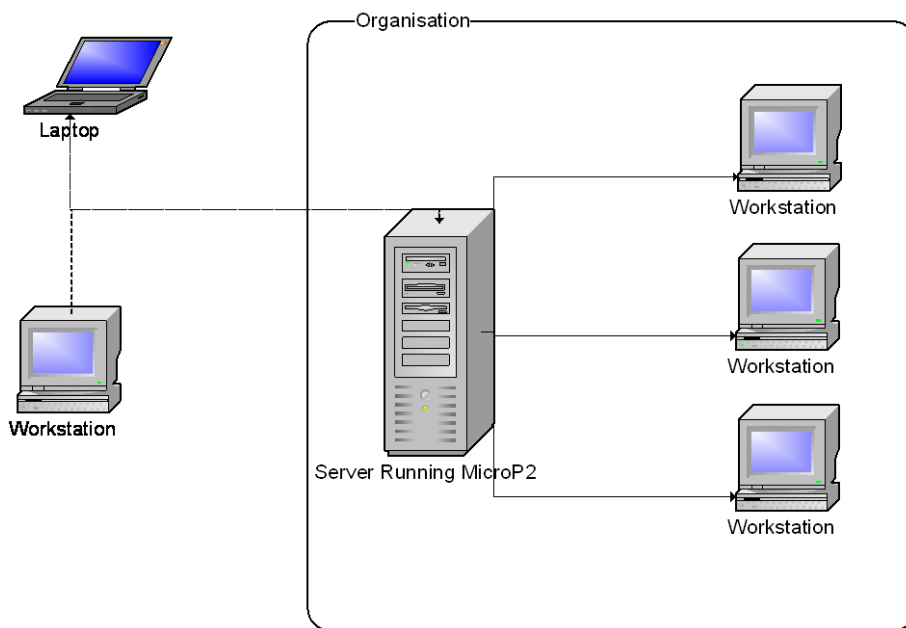

### Key Features

- ❖ Accredited to Silver Level by the APM Group as a Project Management Product and Software Tool aligned with the OGC Successful Delivery Toolkit
- ❖ MicroP2 provides a Project Centre for the management of all project documentation
- ❖ Project Management & MicroP2 E-Learning is included in the product so using MicroP2 enables inexperienced project managers to “step into” their role
- ❖ MicroP2 Project Management skills training can be used to develop staff capability

## Technical Specification

- ❖ MicroP2 is a server-based, self-contained application
- ❖ It will be installed by our IT Team, either on your server, or on our Web-Server

## Licence & Support

- ❖ MicroP2 is sold under licence
- ❖ The cost of the licence is dependent upon the number of users
- ❖ Support is provided for MicroP2 during the licence period
- ❖ The Service Level Agreement details the level of support for the application.

## User Profiles

### User Profiles:

- ❖ Systems Administrators
- ❖ Programme Management Office
- ❖ Programme Managers
- ❖ Project Managers
- ❖ Programme Board Members
